Project Design Phase
Problem – Solution Fit Template

Date	07 September 2026
Team ID	SWUID2026190373
Project Name	ServiceNow Based Employee Laptop Request Application
Maximum Marks	2 Marks

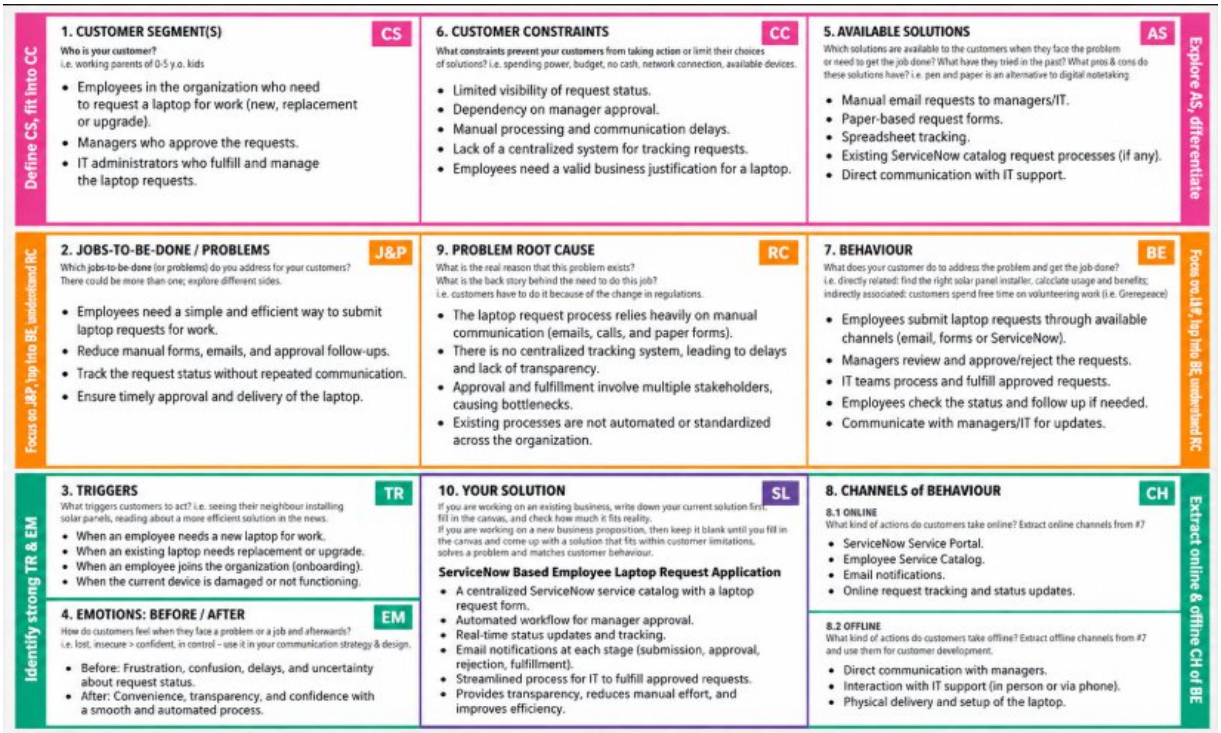

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ❑ Solve complex problems in a way that fits the state of your customers.
- ❑ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ❑ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ❑ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ❑ **Understand the existing situation in order to improve it for your target group.**

Project Design Phase
Solution Architecture

Date	07 September 2026
Team ID	SWUID2026190373
Project Name	ServiceNow Based Employee Laptop Request Application
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.

Project Design Phase
Proposed Solution Template

Date	07 September 2026
Team ID	SWUID2026190373
Project Name	ServiceNow Based Employee Laptop Request Application
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1. 1	Problem Statement (Problem to be solved)	Employee laptop requests are often handled manually, causing delays, inconsistent records and limited visibility of approval status.
2. 2	Idea / Solution description	A ServiceNow application that provides an Employee Service Catalog and Record Producer to capture laptop requests and automatically trigger manager approval, status updates and email notifications.
3. 3	Novelty / Uniqueness	Combines Service Catalog configuration, custom request data, manager-based approval and end-to-end low-code automation in one centralized workflow.
4. 4	Social Impact / Customer Satisfaction	Improves employee experience by reducing waiting time and providing transparent request outcomes while reducing repetitive administrative work.
5. 5	Business Model (Revenue Model)	Designed as an internal enterprise service automation solution; value is created through reduced operational effort and faster request processing.
6. 6	Scalability of the Solution	The same architecture can be extended to other employee service requests such as software access, equipment replacement and onboarding requests.
