Project Name	ServiceNow-Based Employee Laptop Request Application
Maximum Marks	4 Marks

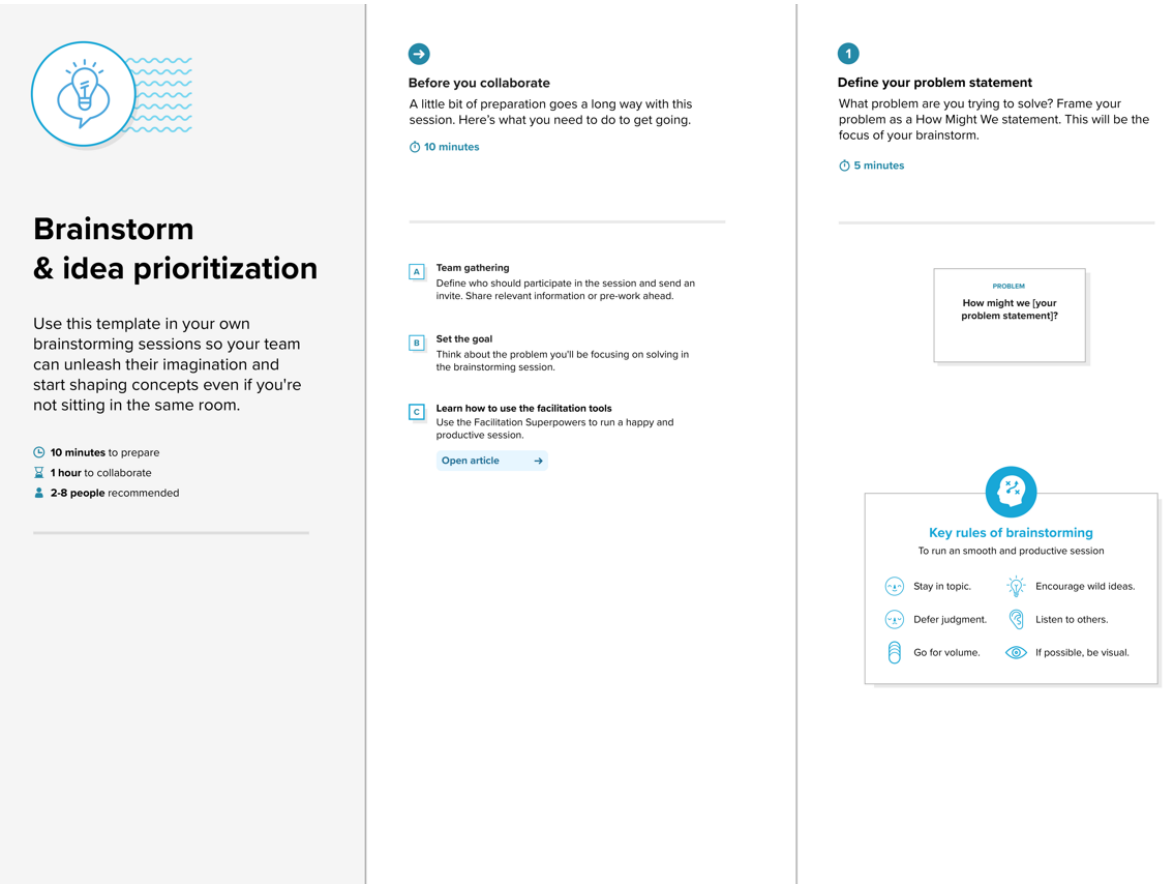

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

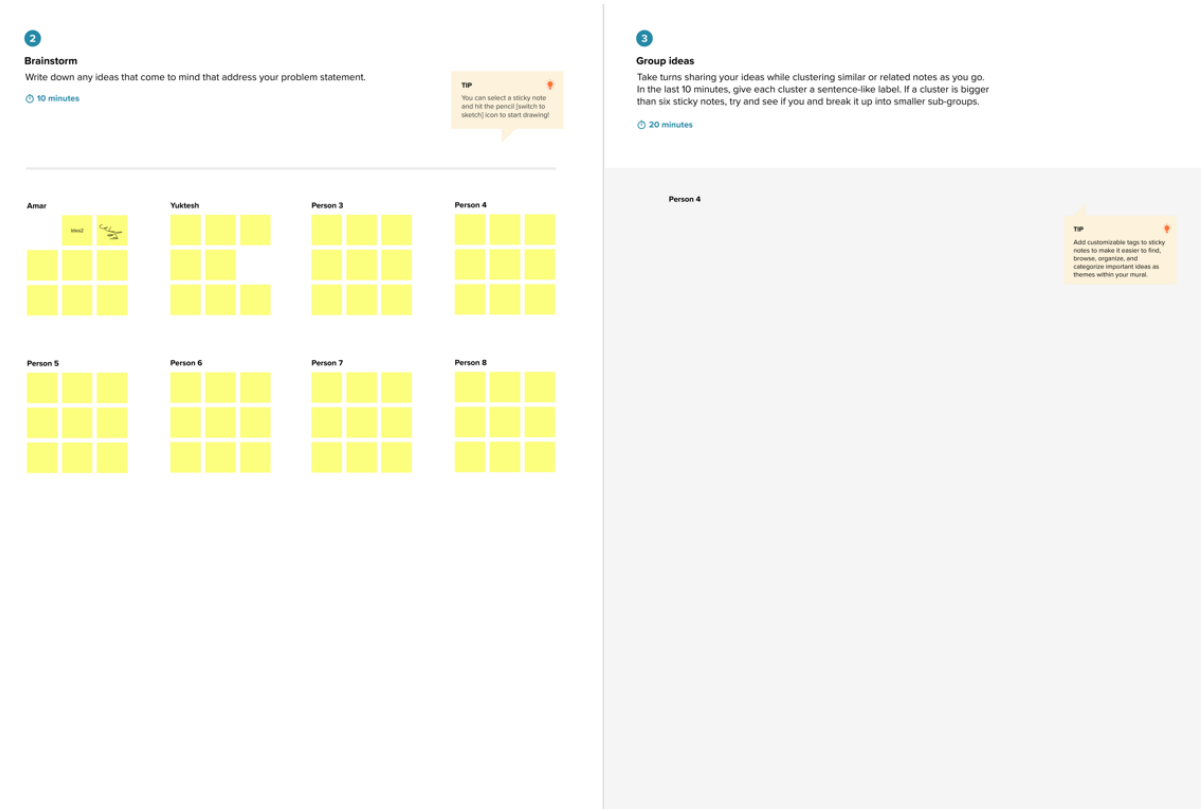

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - *who are they?*	An employee in the organization who needs a laptop for official work and daily job responsibilities, such as development, testing, documentation or communication.
I'm trying to	*List their outcome or "job" the care about - what are* they trying to *achieve?*	Request a suitable laptop through the ServiceNow-Based Employee Laptop Request Application and track the status of my request until I receive the laptop.
but	Describe what problems or barriers stand in the way – *what bothers them most?*	The traditional request and approval process can be slow, manual, and difficult to track, with multiple follow-ups and unclear timelines.
because	Enter the "root cause" of why the problem or barrier exists – what needs *to be solved?*	Laptop requests require manager approval, coordination between IT and procurement teams, and communication across different stakeholders, which often happens through emails or manual processes.
which makes me feel	Describe the emotions from the customer's point of view – how does *it impact them* emotionally?	Frustrated, anxious, and uncertain because I may not know the current status or approval outcome of my laptop request, which can delay my work and affect my productivity.

Project Content:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Employee	request a laptop through the Employee Service Catalog	I may need to manually follow up for approval and status updates	the process may not provide automated approval and communication	frustrated and uncertain about when my request will be completed

PS-2	Manager	review and approve or reject employee laptop requests efficiently	manual coordination can make it difficult to track requests	approval decisions and updates may require repeated follow-up	burdened and concerned about delays or missed requests

PS-1: I am an employee. I'm trying to request a laptop through the Employee Service Catalog, but I may need to manually follow up for approval and status updates because the process may not provide automated approval and communication, which makes me feel frustrated and uncertain about when my request will be completed.

PS-2: I am a manager. I'm trying to review and approve or reject employee laptop requests efficiently, but manual coordination can make it difficult to track requests because approval decisions and updates may require repeated follow-up, which makes me feel burdened and concerned about delays or missed requests.

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to helps teams better understand their users.
Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Project Content: Empathy Map for Employee Laptop Request

Think & Feel • Wants a quick and simple way to request a laptop. • Wonders when the manager will approve the request. • Wants clear visibility of request status. • Expects timely updates and communication.	**Hear** • Colleagues discussing laptop request delays. • Managers explaining approval requirements. • IT communicating request procedures and device availability.
See • The Employee Service Catalog and Laptop Request form. • Statuses such as Pending Approval, Approved, and Rejected. • Email notifications related to approval outcomes.	**Say & Do** • Selects laptop type and reason for request. • Submits the request through ServiceNow. • Waits for manager approval. • Checks status and notifications.
Pain • Manual follow-up for approval. • Uncertainty about request status. • Delays caused by manual coordination. • Lack of timely communication.	**Gain** • Easy self-service request submission. • Automatic manager approval. • Automatic status updates. • Email notifications at each stage. • Reduced manual intervention.

Project Insight: The Employee Laptop Request and Approval System automates the complete request workflow by triggering manager approval after submission, updating request status based on the approval outcome, and sending email notifications at each stage.
